Why Many Batteries Die Young

W. A. Barnett,
John Duncan

502 King Street

J. KENT WHITE

Electrical Engineer

Alexandria, Va.

An automobile battery is only as good as its plates and its plates are seldom better than their separators. When separators break-up, plates break-down. Unless new separators are installed, the battery is soon ready for the junk pile.

The Gould Dreadnaught Armored Separator is the first long life wood separator ever placed in a battery. The characteristic porosity of wood is retained while extra protection from acid adds strength and long life to both separator and plate. Only the Gould Dreadnaught Battery has this patented armored separator. Only the Gould has the famous long life Dreadnaught Plates. Only the Gould gives you longest life as demonstrated by owners' records everywhere.
